CROWN | EVO 100 Slim Gravity Drop Shade System

For Fully Recessed Side Channels & Head Box Installations - Important Design Note!

Standard Method:

Crown provides standard 1.9" side channels and customer must provide a removable panel in the blue area shown below. This is required in order to have enough room to insert and/or remove the shade roller into the head box.

Optional Method:

Crown provides standard optional 4.33" side channels which is of a 3-piece design. The front piece is removable to allow for shade roller to be inserted into head box.

Optional Full Depth Side Channels:
